---

On March 21, 2017, Bojan Vršnak gave in [Hotel Esplanade Zagreb](#) a public lecture on the space weather for the Rotary Club Zagreb. In the lecture entitled "[Space Weather: How to Predict Solar Storms?](#)"

"('Svemirska meteorologija': Kako predvidjeti Sunčeve oluje?), he presented basic space-weather objectives, as well as the related research activity at the Hvar Observatory.
