---

[Dr. sc. Mateja Dumbović](#) is also the winner of yet another international award - [SCOSTEP 2020 distinguished young scientist award](#)

for efforts and achievements in Solar-Terrestrial Physics.

[SCOSTEP](#)

is a thematic body of the

[International Science Council \(ISC\)](#)

that runs international interdisciplinary scientific programs and promotes Solar-Terrestrial Physics research by providing the necessary scientific framework for international collaboration.

Since 2013,

[SCOSTEP](#)

recognizes the efforts and achievements in with three biennial awards. These awards recognize the societal importance of studies in the field of Solar-Terrestrial Physics and give credit to scientists who contribute significantly to these studies and to

[SCOSTEP](#)

activities.
