<u>Dr. sc. Mateja Dumbović</u> is also the winner of yet another international award - <u>SCOSTEP</u> 2020 distinguished young scientist award

for efforts and achievements in Solar-Terrestrial Physics.

# **SCOSTEP**

is a thematic body of the

### International Science Council (ISC)

that runs international interdisciplinary scientific programs and promotes Solar-Terrestrial Physics research by providing the necessary scientific framework for international collaboration. Since 2013,

## **SCOSTEP**

recognizes the efforts and achievements in with three biennial awards. These awards recognize the societal importance of studies in the field of Solar-Terrestrial Physics and give credit to scientists who contribute significantly to these studies and to

#### **SCOSTEP**

activities.
