

On 24th April, dr. sc. Jaša Čalogović gave a lecture about the meteorology (“[Meteorologija – kako prognozirati kakvo će vrijeme biti u Hvaru?](#)”) in the Hvar elementary school. After the lecture the pupils were divided in several groups and a small quiz related to meteorology was organized. Beside the questions, pupils became the synoptic map of the Europe with aim to make alone the weather forecast for Hvar. The symbolic prizes (sweets and chocolate) were given to the best teams that obtained the highest number of points in quiz.
